COBALT BOATS

BR SERIES

# COBALT R5

Attention, perfectionists.  
This one is for you.

Let us introduce you to the Cobalt R5.

No matter the activity of the day, the Cobalt R5 steps up to the plate bringing class and style. At first glance, its exterior profile will catch the eyes of all around. Sleek. Powerful. Aggressive. Notice the graphics – bold, vibrant. But let's not be materialistic here. This legendary ride is worth noting: infectious. That is the word we would use – so infectious that with just one nudge of the wheel and a tight turn, you will be hooked to its smooth nature.

With all the luxury interior appointments that one would expect from a Cobalt, the inside speaks of timeless good taste. The transom is walk-thru, of course. The back-rest is convertible, and the space forward is wide and wider still, followed with yacht-esque wraparound seating. This seating configuration, by the way, belongs only to Cobalt in boats of the R5's size. The twice-wide passenger seat forward makes the cockpit even more flexible in its service of a good time. A console door, elegant in its wood grains and crafted vinyl, opens to a head larger above and all-around than any other boat in the class.

The helm gleams in hand craftsmanship, in oil rubbed ebony Makassar trim and duotone aluminum dash panels and switches of stainless steel and five-inch digital gauges with multi-function readouts and, over all, a form-fitted eyebrow in everlasting vinyl. The wheel wraps in leather: one of the most time-honored of Cobalt traditions, this masterpiece of a steering wheel. Our owners have always insisted on comfort and convenience and accessibility -- "ergonomics" to our designers -- and so the R5's armrests and footrests and controls and cupholders and every last little amenity aboard arrives with a form and a function just too ergo for words. And one more name to drop: the Rockford Fosgate stereo, optimized and ready, as we say, to crank.

Need we say more?

## COBALT BOATS

It is a relationship like no other – boats and their owners. It is that first grip at the helm that releases a sense of assurance down the spine. At that very moment...a promise is made. With each ride, with each cruise comes conversation, laughter and pure enjoyment afloat. At that very moment, a bond is formed on trust, but not just that, a type of trust that feels like family. And with that trust arises a certain lifestyle, an opportunity for families to come together and enjoy what life is truly about. It is a type of confidence that only a Cobalt can instill in its owner.

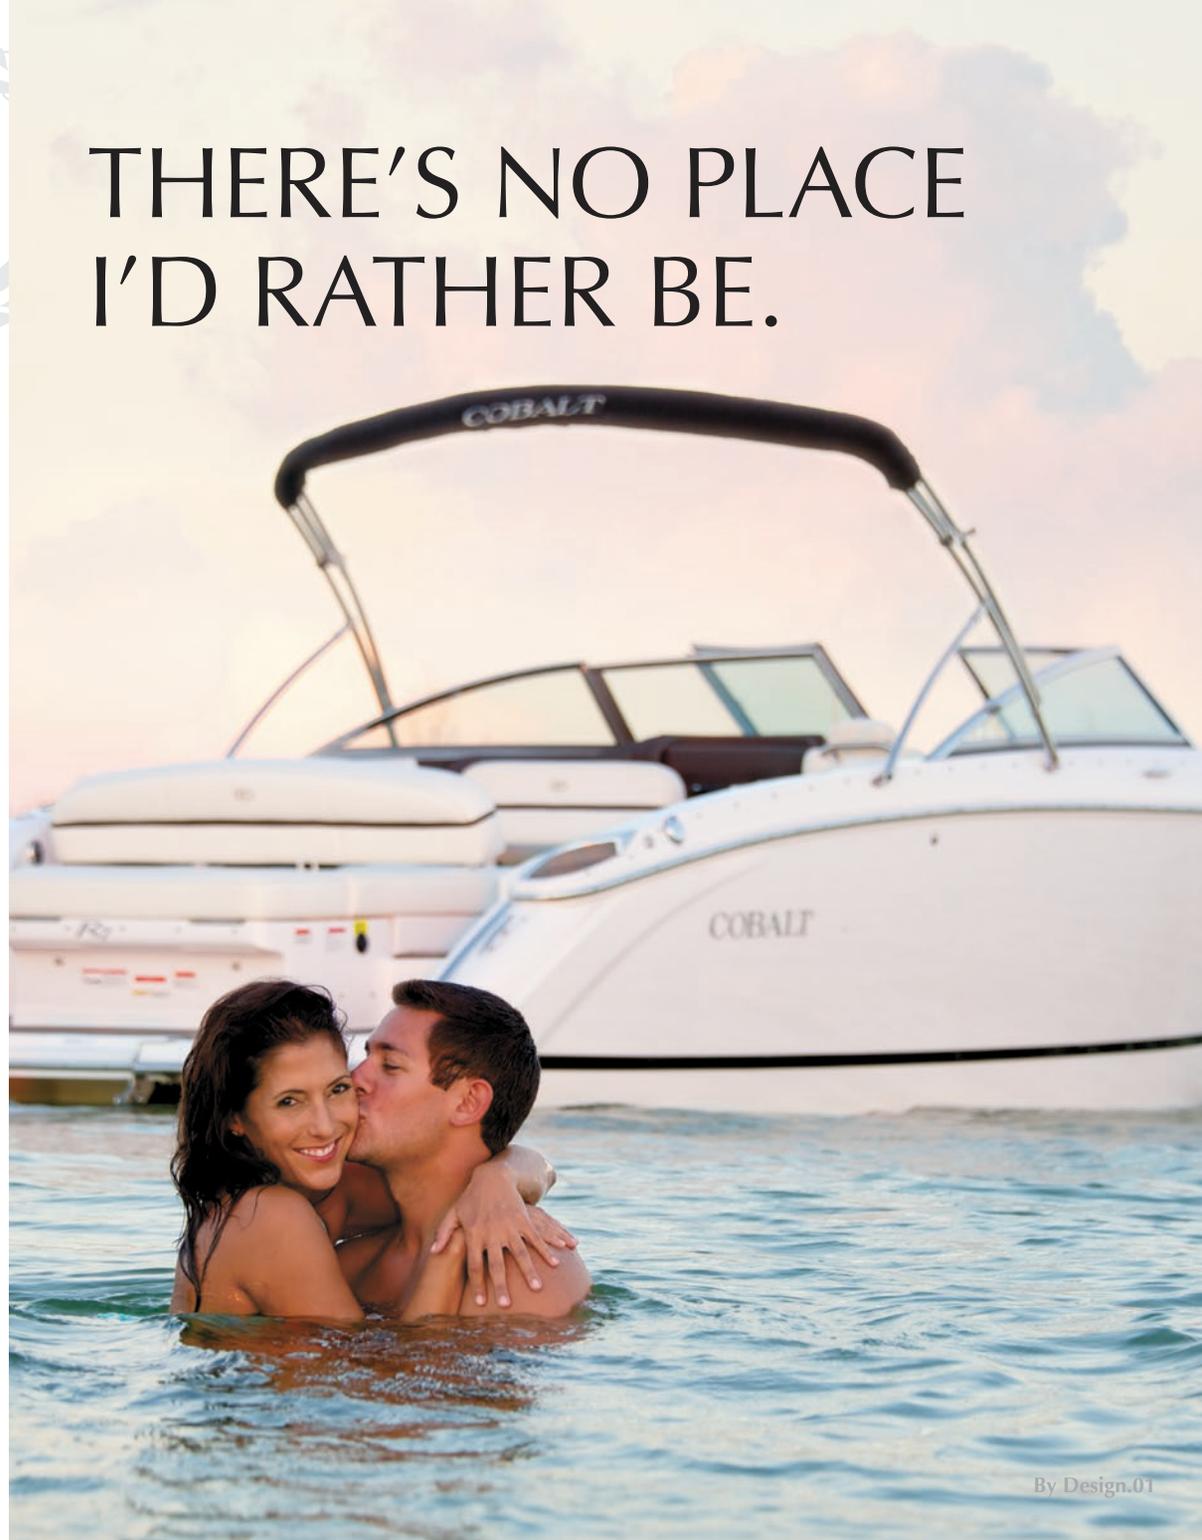

Cobalt Boats is a company that believes the best work is done by hand. And with heart. Those intricate tools allow us to craft with knowledge, imagination, a careful eye, the best boat on the water. We understand the role of technology in this digital age, but we know better than to let it drive us completely away from the personal touches that hand craftsmanship ensures. As we embrace this in many ways, we equally embrace the skillful experience of our associates. For almost fifty years, this has been our philosophy and we are not changing now.

Our Cobalt family believes we have a unique opportunity to enrich life, to help create life-long memories, to arouse a passion for the boating lifestyle. We vow to work tirelessly, creating the most innovative, well-engineered, and best performing boats imaginable. We vow to let our work be consumed by every little detail, every aspect of fit and finish.

This classic tradition will continue in our daily pursuit to build not just boats, but deep personal possessions. We will continue on with our philosophy of compromising absolutely nothing, especially when it comes to constructing piece by piece a watercraft that will create memories of a lifetime.

Here's to another year of building, with our own hands, a vehicle that glides across the water, a boat that utters luxury and perfection. So read on, we say. Consume yourself in the images and lyrics of a boating lifestyle. We are excited to share Cobalt's passions and why we do what we do for our customers everyday. You drive us to exceed your expectations. Thank you and welcome to the family.

## Fine Detailed Interiors

Cobalt interiors speak of timeless sophistication, a subtle elegance made possible only by hand-craftsmanship, by design that anticipates the needs and wishes of boaters worldwide. Personally crafted, a seamless composition of luxurious upholstery paired with oil rubbed macassar trim. Details that make everyone aboard marvel in her beauty and sophistication. All of this, engineered, designed, and crafted with pride by Cobalt.

Move about and feel the warmth of premium materials, bringing to life a space so real, so home. The feeling is relaxed as you glance through the textural variations and intricately detailed furnishings aboard. The finest marine-grade fabrics available wrapped around you in comfort, in style.

And stand behind the helm for an even more distinguished presence. Feel the details of the leather wrapped steering wheel, its smooth nature and ravishing digital design. Beneath the feet lies our stunning and durable sea grass weave flooring, an option that expresses a modern touch. It is these finely detailed interiors, these little nuances that create the best boat on the water...

- Hand-sewn interior details
- Double-needle stitching
- Hand crafted helm with detailed stitching
- Wood dash and trim package
- Digital multi-function gauges and aircraft inspired stainless steel switches

Cobalt's Varadense seating construction utilizes variable densities of foam layered for exceptional support and comfort. Our composite seat bases provide the confidence of a rot free foundation.

## Exceptional Methods of Construction

The beauty of a Cobalt boat runs as deep as the deepest ocean. Cobalt's lamination schedule begins with a premium buff-back gel coat which provides the legendary mirror like finish. A barrier coat incorporates a protective seal for a brilliantly smooth base coat and unparalleled blister resistance. Cobalt laminates, by hand, up to 16 alternating layers of fiberglass and woven roving to build a structural hull designed and crafted for a lifetime of boating pleasure. The honeycomb composite coring is integrated in flooring surfaces to optimize strength-to-weight ratios and to maximize sound dampening and vibration resistance. Gelcoat, graphic accents ensure that the style lines luster will shine for many years to come.

- Barrier coat – a Cobalt exclusive
- 100% hand-laid hulls, reinforced with Kevlar™
- Composite construction on all structural components
- Cushioned lids with knuckled hinges for easy access to storage
- Exceptional stainless hardware
- Integrated bow eye with a scuff plate for protection from trailer marks
- Gelcoat graphics

Rest assured that the little details of construction do their work quietly, contributing to big enjoyment when no one but you need notice.

## Customer Inspired Innovations

### The Swim Platform

Cobalt's swim platforms are large, welcoming and safe, suspended just above the waterline for easy use in all water-borne activities. Oversized, polished stainless steel tubing wraps every platform to protect the boat when docked. Cobalt's exclusive and patented swim step requires only two easy flips: down to use, back to stow. The swim step makes boarding your Cobalt a breeze, and provides a perfectly cool resting area. Illuminate the platform above or below the waterline with option choices to suit your desires.

### Industry Firsts and Real-World Solutions

For almost fifty years, Cobalt has brought innovative functionality to the marketplace. Other marine manufacturers have followed suit. Again this year, we will show an entire industry exactly the way to go.

- Stainless-steel adjustable stanchions to secure and tighten bimini tops with innovative built-in turnbuckle -- no fabric straps here
- Our often-imitated, never-duplicated flip-lip seat bolster – the captain sits high and comfortable, enjoying the full thrill of the ride
- A safer latch for the windshield walk-thru, holding the door securely open – yet another Cobalt first
- Cobalt's extended running surface for quicker planing, firm and true turns, minimized bow rise, and greater lift at the stern
- Cobalt's Sof-Trac mat dresses up your swim platform and is gentle on swim suits and wakeboards, and tremendous traction, even when wet
- Our fender clips deploy your fenders smartly and quickly, always in the right place, and keep your deck cleats free for dock lines
